RIGID INFLATABLE BOATS

Made in U.S.A.

RIB

10-12

WIDEBODY

The **Widebody** series has a distinct style. Its inflatable tube tapers gradually in the stern, creating more space for the rear boarding platform and steps. The **Widebody** has 4 grab handles for swimmer boarding, 2 on each side of the driver's seat. In general, **Widebody** boats are wider than most inflatables, yet they have a deep Vee hull and a larger hull planing surface than most boats their size, resulting in excellent performance and a comfortable ride.

Standard equipment on all boats:

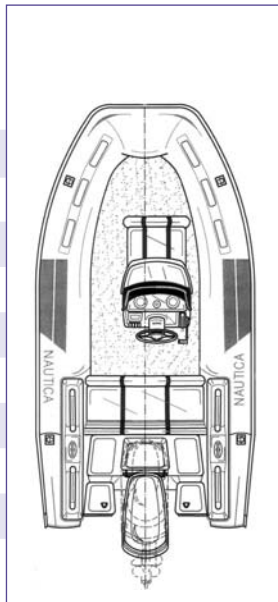

- Waterproof rocker switches on panel
- Circuit breakers
- Color-coded wiring with plug-in connectors
- Hydraulic steering
- Tilt steering helm
- Plexiglass console doors
- Windshield & rail on console
- Battery charger
- Powdercoated aluminum fuel tank built in below deck
- Hand lay-up woven fiberglass lamination
- Top quality marine gelcoat
- High density foam stringers laminated into the hull
- Bilge pump
- Racor fuel/water separator
- 12 volt plug
- Horn
- Navigation lights
- Richie compass
- Powdercoated aluminum hand rails
- Stainless steel hardware and fasteners
- Naugahyde upholstery fabrics
- Layered closed cell foam cushions
- Hypalon / polyester / neoprene inflatable tubes
- Double rubrails and heavy-duty handles
- High-capacity deck drains

WIDEBODY

Widebody boats have more interior space than most other inflatables. That is because **Widebody** boats have a longer fiberglass hull, and a shorter tube which extends only a few inches past the transom. Whereas a 15' **Widebody** has a hull length of nearly 15', the 15' *Deluxe* and most other 15' inflatables have a hull length of about 13'. Seating in the **Widebody** series is wide and spacious with soft luxurious cushions that never absorb water.

Nautica options:

- Bimini top, removable
- Bow rail, padded
- Chocks and tie-downs
- Courtesy deck lights
- Cover, Sunbrella
- Depth sounder
- Dive tank holders
- Fish finder
- GPS chart plotter
- Ladder, clip on transom
- Lift harness, stainless
- Rod holders
- Shower, fresh water
- Ski post, removable
- Step on tube with folding cleat
- Stereo CD player
- Tow eyes
- VHF radio with long antenna
- Yacht's name

RIB

11·12 DELUXE

The **Deluxe** 11 and 12 are compact yacht tenders providing maximum seating with a convenient interior layout. The Euroconsole provides a low profile and a modern look. These boats come with many standard features such as hydraulic steering, tilt wheel, waterproof rocker switches, battery charger, battery switch, plexiglass console doors, built-in aluminum fuel tank and powdercoated metal railings.

Color options on all boats:

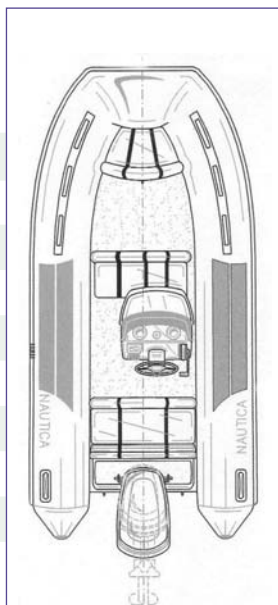

- Tube color (22 hypalon colors)
- Bottom of tube contrasting color (extra charge)
- Rubrails in white, blue, grey, black
- Trim stripe color (22 hypalon colors)
- Cushions color with trim stripe
- Hull color other than white (extra charge)
- Stainless polish or powdercoated rails
- Choice of Sunbrella color/cover/bimini

DELUXE

The 14, 15, and 16 **Deluxe** are impressive inflatable sport boats for all around boating. They feature the standard, conventional tube with handles and sturdy rubrails. The Euroconsole is a stylish helm with optional seating for 2 passengers forward. It affords ample knee- and leg-room for the driver. These boats are also available with a more traditional console (see *Venture series*, page 10).

RIB

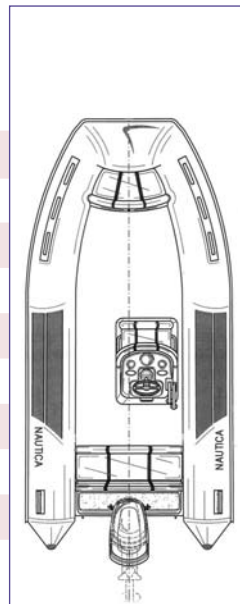

VENTURE

The **Venture** series is similar to the *Deluxe*, but with a conventional styled console. This console features a larger instrument panel, taller windshield and rail, and front-mounted door which swings open to give access to the spacious storage compartment. As in all Nautica boats, the **Venture** series have below deck cabling, built in aluminum fuel tank, a non-skid fiberglass deck, high capacity deck drains and under seat storage.

RIB 15 LIMITED

Unique to the **Limited** series is the high fiberglass gunwale extending up and over the tube. The higher sides give a feeling of security to less mobile individuals and families with small children. Non-skid step pads are formed into the gunwale for boarding. Large seating areas have molded-in cushioned backrests for comfort. It is easy to move about the **Limited's** interior due to toe-kick recesses under the seating and console. Clever storage compartments are hidden under seats and in the topside with easy-access hatches.
